Drug Discovery: Practices, Processes, and Perspectives From Brand: Wiley

Sets forth the history, state of the science, and future directions of drug discovery

Edited by Jie Jack Li and Nobel laureate E. J. Corey, two leading pioneers in drug discovery and medicinal chemistry, this book synthesizes great moments in history, the current state of the science, and future directions of drug discovery into one expertly written and organized work. Exploring all major therapeutic areas, the book introduces readers to all facets and phases of drug discovery, including target selection, biological testing, drug metabolism, and computer-assisted drug design.

Drug Discovery features chapters written by an international team of pharmaceutical and medicinal chemists. Contributions are based on a thorough review of the current literature as well as the authors' firsthand laboratory experience in drug discovery. The book begins with the history of drug discovery, describing groundbreaking moments in the field. Next, it covers such topics as:

- Target identification and validation
- Drug metabolism and pharmacokinetics
- Central nervous system drugs
- In vitro and in vivo assays
- Cardiovascular drugs
- Cancer drugs

Each chapter features a case study, helping readers understand how science is put into practice throughout all phases of drug discovery. References at the end of each chapter serve as a gateway to groundbreaking original research studies and reviews in the field.

Drug Discovery is ideal for newcomers to medicinal chemistry and drug discovery, providing a comprehensive overview of the field. Veterans in the field will also benefit from the perspectives of leading international experts in all aspects of drug discovery.

Editorial Review

Review

“Taken together, the book is an excellent introduction into drug discovery and an eminent summary of the very important milestones of drug discovery in the most critical indication areas. This book is a valuable addition to the library of all different kinds of scientists working in the field of drug discovery.”
(*ChemMedChem*, 1 October 2013)

About the Author

JIE JACK LI, PhD, is a chemist at Bristol-Myers Squibb Company. He has authored or edited several books published by Wiley, including *Name Reactions in Heterocyclic Chemistry*, *Name Reactions for Functional Group Transformations*, *Name Reactions for Homologations (Part I and Part II)*, *Name Reactions for Carbocyclic Ring Formations*, *Contemporary Drug Synthesis*, *The Art of Drug Synthesis*, and *Modern Drug Synthesis*.

E. J. COREY, PhD, has been a Professor at Harvard University since 1959. The 1990 Nobel Laureate in Chemistry, Dr. Corey has also been the recipient of more than seventy international awards and honorary degrees, including the U.S. National Medal of Science, the Japan Prize in Science, and the Priestley Medal. Author of more than 1,500 publications, he is one of the most cited authors in science.

Users Review

From reader reviews:

Kim Bartlett:

Here thing why that Drug Discovery: Practices, Processes, and Perspectives are different and reputable to be yours. First of all reading through a book is good nevertheless it depends in the content than it which is the content is as yummy as food or not. Drug Discovery: Practices, Processes, and Perspectives giving you information deeper since different ways, you can find any reserve out there but there is no publication that similar with Drug Discovery: Practices, Processes, and Perspectives. It gives you thrill reading through journey, its open up your eyes about the thing this happened in the world which is perhaps can be happened around you. It is possible to bring everywhere like in park, café, or even in your technique home by train. For anyone who is having difficulties in bringing the imprinted book maybe the form of Drug Discovery: Practices, Processes, and Perspectives in e-book can be your alternative.

Alberta Townsend:

Information is provisions for anyone to get better life, information currently can get by anyone with everywhere. The information can be a information or any news even an issue. What people must be consider while those information which is inside former life are hard to be find than now is taking seriously which one is suitable to believe or which one the resource are convinced. If you have the unstable resource then you

buy it as your main information it will have huge disadvantage for you. All those possibilities will not happen within you if you take Drug Discovery: Practices, Processes, and Perspectives as your daily resource information.

Richard Osteen:

What is your hobby? Have you heard that will question when you got pupils? We believe that that query was given by teacher to the students. Many kinds of hobby, Everybody has different hobby. Therefore you know that little person similar to reading or as studying become their hobby. You have to know that reading is very important along with book as to be the factor. Book is important thing to increase you knowledge, except your current teacher or lecturer. You see good news or update about something by book. Amount types of books that can you choose to use be your object. One of them is actually Drug Discovery: Practices, Processes, and Perspectives.

Richard Mendoza:

Some people said that they feel uninterested when they reading a e-book. They are directly felt that when they get a half regions of the book. You can choose the actual book Drug Discovery: Practices, Processes, and Perspectives to make your current reading is interesting. Your skill of reading expertise is developing when you such as reading. Try to choose easy book to make you enjoy you just read it and mingle the idea about book and looking at especially. It is to be very first opinion for you to like to start a book and go through it. Beside that the publication Drug Discovery: Practices, Processes, and Perspectives can to be your new friend when you're really feel alone and confuse with what must you're doing of this time.
