Entropy: The Truth, the Whole Truth, and Nothing But the Truth By Arieh Ben-Naim

This book discusses the proper definitions of entropy, the valid interpretation of entropy and some useful applications of the concept of entropy. Unlike many books which apply the concept of entropy to systems for which it is not even defined (such as living systems, black holes and the entire universe), these applications will help the reader to understand the meaning of entropy. It also emphasizes the limitations of the applicability of the concept of entropy and the Second Law of Thermodynamics. As with the previous books by the author, this book aims at a clear and mystery-free presentation of the central concept in thermodynamics the entropy. In this book, the concepts of entropy and the Second Law are presented in a friendly, simple language. It is devoid of all kinds of fancy and pompous statements made by authors of popular science books who write on this subject.

Editorial Review

From the Inside Flap

This book discusses the proper definitions of entropy, the valid interpretation of entropy and some useful applications of the concept of entropy. Unlike many books which apply the concept of entropy to systems for which it is not even defined (such as living systems, black holes and the entire universe), these applications will help the reader to understand the meaning of entropy. It also emphasizes the limitations of the applicability of the concept of entropy and the Second Law of Thermodynamics. As with the previous books by the author, this book aims at a clear and mystery-free presentation of the central concept in thermodynamics the entropy. In this book, the concepts of entropy and the Second Law are presented in a friendly, simple language. It is devoid of all kinds of fancy and pompous statements made by authors of popular science books who write on this subject.

About the Author

The author is a professor emeritus from the department of Physical Chemistry,
the Hebrew University of Jerusalem, Israel

Users Review

From reader reviews:

Katie Martinez:

What do you in relation to book? It is not important with you? Or just adding material when you need something to explain what your own problem? How about your extra time? Or are you busy individual? If you don't have spare time to try and do others business, it is make you feel bored faster. And you have time? What did you do? All people has many questions above. The doctor has to answer that question simply because just their can do which. It said that about guide. Book is familiar on every person. Yes, it is appropriate. Because start from on kindergarten until university need this Entropy: The Truth, the Whole Truth, and Nothing But the Truth to read.

Carmen Jensen:

The book with title Entropy: The Truth, the Whole Truth, and Nothing But the Truth contains a lot of information that you can study it. You can get a lot of profit after read this book. This particular book exist new information the information that exist in this reserve represented the condition of the world at this point. That is important to yo7u to understand how the improvement of the world. That book will bring you with new era of the the positive effect. You can read the e-book with your smart phone, so you can read this anywhere you want.

Freddie Hoops:

Reading can be called imagination hangout, why? Because when you find yourself reading a book mainly book entitled Entropy: The Truth, the Whole Truth, and Nothing But the Truth your head will drift away through every dimension, wandering in most aspects that maybe unfamiliar for but surely can become your mind friends. Imaging each word written in a publication then become one form conclusion and explanation that will maybe you never get before. The Entropy: The Truth, the Whole Truth, and Nothing But the Truth giving you another experience more than blown away your thoughts but also giving you useful details for your better life in this era. So now let us teach you the relaxing pattern here is your body and mind will likely be pleased when you are finished studying it, like winning an activity. Do you want to try this extraordinary paying spare time activity?

Marilyn Leonard:

Do you like reading a publication? Confuse to looking for your favorite book? Or your book had been rare? Why so many query for the book? But any kind of people feel that they enjoy regarding reading. Some people likes reading through, not only science book but in addition novel and Entropy: The Truth, the Whole Truth, and Nothing But the Truth or maybe others sources were given expertise for you. After you know how the fantastic a book, you feel desire to read more and more. Science book was created for teacher or perhaps students especially. Those guides are helping them to add their knowledge. In different case, beside science reserve, any other book likes Entropy: The Truth, the Whole Truth, and Nothing But the Truth to make your spare time far more colorful. Many types of book like here.
