Retrograde Planets: Traversing the Inner Landscape By Erin Sullivan

Geocentricity might well be egocentricity-the phenomenon of retrograde motion is based on our Earth-centered view of the solar system, but the movement and cycles of retrograde planets are based entirely on the apparent motion of the Sun through the zodiac. Sullivan organizes and explains retrograde motion from a systems-viewpoint-the system of the Sun and planets-and interprets retrograde planets natally, by progression, and in transit.

Sullivan has interpreted these movements in a way that is immediately apparent and useful to both novice and professional astrologers, and provides both psychological and mundane interpretations of retrograde planets. This edition includes and index.

Editorial Review

From the Back Cover

"Geocentricity might well be egocentricity". The phenomenon of retrograde motion is based on our Earth-centered view of the solar system, but the movement and cycles of retrograde planets are based entirely on the apparent motion of the Sun through the zodiac. This book organizes and explains retrograde motion from a systems-viewpoint -- the system of the Sun and planets -- and interprets retrograde planets naturally, by progression, and in transit.

Users Review

From reader reviews:

Evan Hinson:

Here thing why that Retrograde Planets: Traversing the Inner Landscape are different and dependable to be yours. First of all reading a book is good nonetheless it depends in the content from it which is the content is as scrumptious as food or not. Retrograde Planets: Traversing the Inner Landscape giving you information deeper including different ways, you can find any e-book out there but there is no guide that similar with Retrograde Planets: Traversing the Inner Landscape. It gives you thrill reading journey, its open up your personal eyes about the thing that will happened in the world which is perhaps can be happened around you. You can easily bring everywhere like in park your car, café, or even in your method home by train. For anyone who is having difficulties in bringing the branded book maybe the form of Retrograde Planets: Traversing the Inner Landscape in e-book can be your alternate.

Marcella Aragon:

Nowadays reading books be a little more than want or need but also get a life style. This reading behavior give you lot of advantages. The advantages you got of course the knowledge even the information inside the book in which improve your knowledge and information. The info you get based on what kind of reserve you read, if you want get more knowledge just go with education books but if you want experience happy read one with theme for entertaining for example comic or novel. The particular Retrograde Planets: Traversing the Inner Landscape is kind of e-book which is giving the reader erratic experience.

Martina Lassiter:

As we know that book is very important thing to add our expertise for everything. By a publication we can know everything you want. A book is a set of written, printed, illustrated or maybe blank sheet. Every year seemed to be exactly added. This guide Retrograde Planets: Traversing the Inner Landscape was filled concerning science. Spend your extra time to add your knowledge about your research competence. Some people has diverse feel when they reading any book. If you know how big advantage of a book, you can feel enjoy to read a guide. In the modern era like at this point, many ways to get book which you wanted.

Mildred Kershner:

As a student exactly feel bored to reading. If their teacher requested them to go to the library as well as to make summary for some reserve, they are complained. Just small students that has reading's internal or real their passion. They just do what the instructor want, like asked to go to the library. They go to at this time there but nothing reading critically. Any students feel that reading through is not important, boring in addition to can't see colorful pictures on there. Yeah, it is for being complicated. Book is very important in your case. As we know that on this era, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore , this Retrograde Planets: Traversing the Inner Landscape can make you sense more interested to read.
