#### Review

As we all have read the story of Ravinder Singh which was a true love story and was announced bestseller, we so much excited to read Ravin's (sorry khushi madam for calling Mr. Ravinder only Ravin) LIFE. Means we also have a sad feelings for Ravin for happen to his life but when I read his second novel "Can Love Happen Twice?" I tell you it was amazing because we also have lost hope that now Ravin has to be alone for whole his life but He introduced Simar and I would admire his friends WHO HAVE PUT A GREAT ENDEAVOR for his friend and prove that it is not about only family member can think for our great future...there are some relations which are born to be with you forever who can do anything for just your great future and relation...He showed us that life is not over when someone goes away from us forever we should start life again and should give a chance to our life may be some other person would be willing to live with us willing to share something about their life so we should give a chance to their life at least.... I wish for Ravin's bright future. --hiren patel Dec 24, 2011

Love can happen twice. i say this because it is a simple experienced fact. the death of a love is really painful and people who have experienced this can only know how it feels. the darkness, emptiness, loneliness and pain is undescrivable. but the new love heals you. even though it may not be like the first it is still powerful and it is equally important. i cannot express how happy i am that Ravin has found love again.. true the innocence of the first story does go missing but this one too is important. all i can say is that Ravinder has put most of what we who have lost loves in the past into words which most of us can't do. he has also expressed the joy of finding new love which again we can't explain because of its difference. love is indeed eternal and i wish Ravin the best of life in this story and many more to come. --Shekinah S 23 Dec 2011

Downloaded this book and went through it in one day. Superb! To be honest, I downloaded the book only because I found myself asking the same question. Was it just emotional or chemical, or was destiny involved. Read it for yourself, will not be disappointed (by the book, not end result. --Anup Bhatt 08 Oct 2013
