Learning C# 3.0: Master the fundamentals of C# 3.0 By Jesse Liberty, Brian MacDonald

If you're new to C#, this popular book is the ideal way to get started. Completely revised for the latest version of the language, *Learning C# 3.0* starts with the fundamentals and takes you through intermediate and advanced C# features -- including generics, interfaces, delegates, lambda expressions, and LINQ. You'll also learn how to build Windows applications and handle data with C#.

No previous programming experience is required -- in fact, if you've never written a line of code in your life, bestselling authors Jesse Liberty and Brian MacDonald will show you how it's done. Each chapter offers a self-contained lesson to help you master key concepts, with plenty of annotated examples, illustrations, and a concise summary.

With this book, you will:

- Learn how to program as you learn C#
- Grasp the principles of object-oriented programming through C#
- Discover how to use the latest features in C# 3.0 and the .NET 3.5 Framework--including LINQ and the Windows Presentation Foundation (WPF)
- Create Windows applications and data-driven applications

You'll also find a unique **Test Your Knowledge** section in each chapter, with practical exercises and review quizzes, so you can practice new skills and test your understanding. If you're ready to dive into C# and .NET programming, this book is a great way to quickly get up to speed.

Editorial Review

About the Author

Jesse Liberty is a Microsoft Senior Program Manager where he is responsible for the creation of tutorials, videos and other content to facilitate the learning and use of Silverlight. Even before joining Microsoft, Jesse was well known in the industry in part because of his many bestselling books, including O'Reilly Media's Programming .NET 3.5, Programming C# 3.0, Learning ASP.NET with AJAX and the soon to be published Programming Silverlight.

Brian MacDonald has edited programming and networking books for major publishers on topics ranging from securing Windows servers to PHP web programming to running an eBay business. He also coauthored O'Reilly's Learning C# 2005 and Learning ASP.NET 2.0 with AJAX.

Users Review
