Editorial Review

Review
A complete kit of proven best practices that any organization can use and customize to make policies that meet their exact needs. Don't write policies without it. --Jay Heiser, Columnist, Information Security Magazine

This is the gold standard Policy reference for any serious security practitioner to have in their arsenal of tools, a must have! The instructions and examples for establishing security policies and implementation processes add real value to this edition. --John B. Kramer, CISSP, CISA. Information Security Manager

Information Security Policies Made Easy (ISPME) is one of the most important information security books available for those who are serious about creating a comprehensive set of information systems security policies. Given the dynamic nature of technology, very few technology books can stand the test of time and remain relevant for a few years, let alone a decade after their original printing. --Ben Rothke CISSP, CISM. DIrector-Security Technology Implementation

About the Author
Charles Cresson Wood, CISA, CISSP, CISM, is an author, researcher and independent security consultant based in Sausalito, California. In the information security field on a full-time basis since 1979, he has done information security work for over 125 organizations in 20 different countries around the world. He has worked with a large number of financial institutions and high-tech companies, many of them in the Fortune 500. He has published over 300 technical articles and five other books dealing with information security. In 1996, he received the Lifetime Achievement Award from the Computer Security Institute.

Users Review

From reader reviews:

Frankie Evans:
