# MySQL (5th Edition) (Developer's Library)

By Paul DuBois

MySQL (5th Edition) (Developer's Library) By Paul DuBois

MySQL, Fifth Edition by Paul DuBois
The definitive guide to using, programming and administering MySQL 5.5 and MySQL 5.6

MySQL provides a comprehensive guide to effectively using and administering the MySQL database management system (DBMS).

Author Paul DuBois describes everything from the basics of getting information into a database and formulating queries, to using MySQL with PHP or Perl to generate dynamic web pages, to writing your own programs that access MySQL databases, to administering MySQL servers. The book also includes a comprehensive reference section providing detailed information on MySQL's structure, language, syntax, and APIs.

The fifth edition of this bestselling book has been meticulously revised and updated to thoroughly cover the latest features and capabilities of MySQL 5.5, as well as to add new coverage of features introduced with MySQL 5.6.

MySQL is an open source relational database management system (DBMS) that has experienced a phenomenal growth in popularity and use. Known for its speed and ease of use, MySQL has proven itself to be particularly well-suited for developing database-backed websites and applications. MySQL runs on anything from modest hardware all the way up to enterprise servers, and its performance rivals any database system put up against it.

Paul DuBois' *MySQL*, Fifth Edition, is the definitive guide to fully exploiting all the power and versatility of MySQL 5.5 and MySQL 5.6

Contents at a Glance

Editorial Review

About the Author

Paul DuBois is a writer, database administrator, and leader in the open source and MySQL communities. He has contributed to the online documentation for MySQL and is the author of *MySQL and Perl for the Web* (New Riders), *MySQL Cookbook*, *Using csh and tcsh*, and *Software Portability with imake* (O'Reilly). He is currently a technical writer with the MySQL documentation team at Oracle Corporation.

Users Review

From reader reviews:

Donald Andrews:

What do you consider book? It is just for students as they are still students or the item for all people in the world, the actual best subject for that? Just you can be answered for that question above. Every person has distinct personality and hobby for each other. Don't to be obligated someone or something that they don't would like do that. You must know how great in addition to important the book MySQL (5th Edition) (Developer's Library). All type of book would you see on many solutions. You can look for the internet options or other social media.

Sheila Donovan:

Here thing why that MySQL (5th Edition) (Developer's Library) are different and reputable to be yours. First of all looking at a book is good but it really depends in the content of computer which is the content is as delightful as food or not. MySQL (5th Edition) (Developer's Library) giving you information deeper including different ways, you can find any publication out there but there is no guide that similar with MySQL (5th Edition) (Developer's Library). It gives you thrill reading through journey, its open up your personal eyes about the thing which happened in the world which is maybe can be happened around you. It is easy to bring everywhere like in park your car, café, or even in your way home by train. In case you are having difficulties in bringing the imprinted book maybe the form of MySQL (5th Edition) (Developer's Library) in e-book can be your substitute.

Danielle Deguzman:

Does one one of the book lovers? If yes, do you ever feeling doubt when you are in the book store? Try to pick one book that you never know the inside because don't ascertain book by its handle may doesn't work here is difficult job because you are afraid that the inside maybe not since fantastic as in the outside appearance likes. Maybe you answer might be MySQL (5th Edition) (Developer's Library) why because the wonderful cover that make you consider regarding the content will not disappoint you. The inside or content is fantastic as the outside or cover. Your reading sixth sense will directly make suggestions to pick up this book.

Allen Lutz:

Many people spending their period by playing outside having friends, fun activity along with family or just watching TV the entire day. You can have new activity to pay your whole day by examining a book. Ugh, do you think reading a book really can hard because you have to bring the book everywhere? It alright you can have the e-book, delivering everywhere you want in your Smartphone. Like MySQL (5th Edition) (Developer's Library) which is keeping the e-book version. So , try out this book? Let's see.
