### **Power in Movement: Social Movements, Collective Action and Politics (Cambridge Studies in Comparative Politics) By Sidney Tarrow**

From the French and American Revolutions through the democratic and workers' movements of the nineteenth century to the totalitarian movements of today, social movements exercise a fleeting but powerful influence on politics and society. This study surveys the history of the social movement, puts forward a theory of collective action to explain its surges and declines, and offers an interpretation of the power of movement that emphasizes its effects on personal lives, policy reforms and political culture. While covering cultural, organizational and personal sources of movements' power, the book emphasizes the rise and fall of social movements as part of political struggle and as the outcome of changes in political opportunity structure.
