XXXXXXXXXXXXXXXXXXXXXXXXXXXX

*Campbell Biology: Concepts & Connections* continues to introduce pedagogical innovations, which motivate you not only to learn, but also engage with biology. The **Eighth Edition** of this market-leading book builds on its hallmarks of accuracy, currency, and a dedication to revolutionizing teaching and learning solutions. This thorough revision focuses on providing instructors with the resources needed to invigorate the course and gives you the tools you need to succeed. This edition includes many new key figures to help you better visualize tough topics, while an increased emphasis on scientific thinking equips you to leave the course thinking like a scientist. The book and MasteringBiology® work together to create a classroom experience that enables you to succeed in biology.

This program presents a teaching and learning experience—for you .

- **Engage in biology and make important connections between concepts and unifying themes:** Immerse yourself in the world of biology with both the textbook and MasteringBiology, so you can understand the connections across biological concepts.
- **Focus on scientific thinking:** Think like scientists and develop scientific reasoning and literacy skills with new Scientific Thinking Modules and more.
- **Maximize learning and success:** Get the tools you need to become skilled at learning and understanding course material. MasteringBiology coaches you through tough topics and helps you to actively practice concepts they need to

grasp.

## **Editorial Review**

### About the Author

Reece has an A.B. in Biology from Harvard University, an M.S. in Microbiology from Rutgers University, and a Ph.D. in Bacteriology from the University of California, Berkeley. She taught biology at Middlesex County College and Queensborough Community College.

With a Ph.D. from Purdue University, Jean Dickey has been involved in teaching introductory biology labs since 1978. Her experience includes developing an investigative laboratory curriculum for a large enrollment non-majors course at Clemson University, as well as supervising TAs and lab preparations. Besides working with general biology students, she also teaches life science for elementary education majors. When Dr. Dickey is not with her students, daughters Katherine and Jessica keep her busy.

## **Users Review**

### **From reader reviews:**

#### **Timothy Larios:**
