Editorial Review

From the Publisher

This book presents in a clear and straightforward style the basic skills required to begin learning manipulative procedures. All manipulative procedures are presented in an easy to follow step-by-step format, illustrated by clear and informative photographs with a column of text opposite a column of photographs. Essential reading for all chiropractors both students and practitioners, this book will also be of interest to all those performing spinal manipulation whether they be physicians, osteopaths or physiotherapists. The foreword is written by Adrian Grice MSc DC FCCS.
