

Communication Technology Update

By August E. Grant, Jennifer H. Meadows, Technology Futures Inc.

Communication Technology Update By August E. Grant, Jennifer H. Meadows, Technology Futures Inc.

The latest edition of this review of the state-of-the-art in communication technologies is more comprehensive than ever before. The text continues to provide users with the latest information in all areas of telecommunication: electronic mass media, computers, consumer electronics, satellites, and telephony. New chapters for the sixth edition cover print technologies, electronic mail, and personal communication devices, in addition to the comprehensive coverage of two dozen technologies explored in the previous edition. Information on similar technologies has been concentrated into a smaller number of chapters to make it easier to compare history, revenues, technical descriptions, and user information across technologies.

This revision includes a more comprehensive companion home page on the World Wide Web that provides updated information submitted by chapter authors. The Communication Technology Update Home Page (<http://www.tfi.com/ctu/>) also offers links to other Internet resources, as well as a listing of trade organizations and trade publications covering all areas of communication technology.

As we enter the 21st Century, new communication technologies are being introduced at an astonishing rate. Making sense of these technologies is becoming more difficult. Communication Technology Update is the single source for the latest developments, trends, and issues in communication technology. Now in its sixth edition, Communication Technology Update has become an indispensable information resource for business, government, and academia.

Editorial Review

Review

Print & graphics a bit dull but "Factors to Watch" is useful; could use some attention to social factors.

thanks for sending this review copy of me so quickly, the book, and its accompanying website, provide excellent information on the "state-of-the-art" of non communication technologies.

From the Publisher

As we enter the 21st Century, new communication technologies are being introduced at an astonishing rate. Making sense of these technologies is becoming more difficult. Communication Technology Update is the single source for the latest developments, trends, and issues in communication technology. Now in its sixth edition, Communication Technology Update has become an indispensable information resource for business, government, and academia. The sixth edition of Communication Technology Update also includes a Statistical Abstract of Communication Technologies, providing year-by-year statistics on dozens of communication technologies, as well as a complete glossary.

About the Author

Dr. August E. ("Augie") Grant is a technology futurist who specializes in research on new media technologies and consumer behavior.

Jennifer H. Meadows is Associate Professor in the Media Arts Option of the Department of Communication Design at California State University, Chico. She earned her M.A. in Radio, Television and Motion Pictures at the University of North Carolina at Chapel Hill and a Ph.D. in Radio-Television-Film from the University of Texas at Austin. Her teaching and research integrate practical and theoretical concerns related to television production, the relationships between media and users, and changing media behavior in the new media marketplace. In addition to her teaching and research, she is Executive Producer for Milk Crate Productions and is a consultant to media organizations.

Using proven methodologies and strategic applications, TFI prepares technology and market forecasts, which provide a forward-looking vantage point for making sustainable business decisions. Their services include consulting, research, education, and publications. Their clients include leading international technology and industrial companies. When industry insiders want an informed, independent assessment of future technology change, they call Technology Futures, Inc. [www.tfi.com]

Users Review

From reader reviews:

Donna Casey:

Within other case, little individuals like to read book Communication Technology Update. You can choose the best book if you like reading a book. Providing we know about how is important any book Communication Technology Update. You can add know-how and of course you can around the world by the book. Absolutely right, because from book you can know everything! From your country until foreign or abroad you will find yourself known. About simple point until wonderful thing you could know that. In this era, you can open a book or searching by internet device. It is called e-book. You may use it when you feel fed up to go to the library. Let's read.

Agnes Shivers:

The book Communication Technology Update has a lot of information on it. So when you read this book you can get a lot of gain. The book was published by the very famous author. The writer makes some research just before write this book. This kind of book very easy to read you will get the point easily after reading this article book.

Jimmy Putnam:

Exactly why? Because this Communication Technology Update is an unordinary book that the inside of the e-book waiting for you to snap the item but latter it will shock you with the secret the idea inside. Reading this book alongside it was fantastic author who have write the book in such amazing way makes the content interior easier to understand, entertaining approach but still convey the meaning fully. So , it is good for you because of not hesitating having this any longer or you going to regret it. This unique book will give you a lot of gains than the other book include such as help improving your expertise and your critical thinking approach. So , still want to hesitate having that book? If I have been you I will go to the book store hurriedly.

Erin Harmon:

Publication is one of source of information. We can add our information from it. Not only for students but in addition native or citizen need book to know the upgrade information of year to help year. As we know those books have many advantages. Beside all of us add our knowledge, may also bring us to around the world. By book Communication Technology Update we can get more advantage. Don't you to be creative people? To become creative person must love to read a book. Just simply choose the best book that suitable with your aim. Don't always be doubt to change your life with this book Communication Technology Update. You can more desirable than now.
