Campbell Essential Biology Plus MasteringBiology with eText -- Access Card Package (5th Edition) By Eric J. Simon, Jean L. Dickey, Jane B. Reece

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you **select the correct ISBN**. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, **you may need a CourseID**, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

Packages

Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase.

Used or rental books

If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code.

Access codes

Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase.

--

Campbell Essential Biology with MasteringBiology®, Fifth Edition, makes biology irresistibly interesting for non-majors biology students. This best-selling text, known for its scientific accuracy and currency, makes biology relevant and approachable with increased use of analogies, real world examples, more conversational language, and intriguing questions. Over 100 new MasteringBiology activities engage students outside of the classroom, plus new PowerPoint® presentations on issues like infectious disease and climate change offer a springboard for high-impact lectures.

Campbell Essential Biology... make biology irresistibly interesting.

Editorial Review

About the Author

Eric J. Simon is an associate professor of Department of Biology and Health Science at New England College in Henniker, New Hampshire. He teaches introductory biology to science majors and nonscience majors, as well as upper-level courses in genetics, microbiology, tropical marine biology, and molecular biology. Dr. Simon received a B.A. in biology and computer science and an M.A. in biology from Wesleyan University and a Ph.D. in biochemistry from Harvard University. His research focuses on innovative ways to use technology to improve teaching and learning in the science classroom, particularly for nonscience majors. He is the coauthor of *Campbell Biology: Concepts and Connections*, Seventh Edition.

Jane B. Reece has worked in biology publishing since 1978, when she joined the editorial staff of Benjamin Cummings. Her education includes an A.B. in biology from Harvard University (where she was initially a philosophy major), an M.S. in microbiology from Rutgers University, and a Ph.D. in bacteriology from the University of California, Berkeley. At UC Berkeley and later as a postdoctoral fellow in genetics at Stanford University, her research focused on genetic recombination in bacteria. Dr. Reece taught biology at Middlesex County College (New Jersey) and Queensborough Community College (New York). During her twelve years as an editor, she played a major role in a number of successful textbooks. She is the lead author of *Campbell Biology*, Ninth Edition and *Campbell Biology: Concepts & Connections*, Seventh Edition.

Jean L. Dickey is a professor of biology at Clemson University. She had no idea that science was interesting until her senior year in high school, when a scheduling problem landed her in advanced biology. Abandoning plans to study English or foreign languages, she enrolled in Kent State University as a biology major. After receiving her B.S. in biology, she went on to earn a Ph.D. in ecology and evolution from Purdue University. Since joining the faculty at Clemson in 1984, Dr. Dickey has specialized in teaching nonscience majors, including a course designed for pre-service elementary teachers and workshops for in-service teachers. She also developed an investigative laboratory curriculum for general biology. Dr. Dickey is the author of *Laboratory Investigations for Biology*, Second Edition, and is a coauthor of *Campbell Biology: Concepts & Connections*, Seventh Edition.

Users Review

From reader reviews:

Amber Orłowski:

Do you have favorite book? In case you have, what is your favorite's book? Publication is very important thing for us to find out everything in the world. Each publication has different aim or perhaps goal; it means that e-book has different type. Some people sense enjoy to spend their the perfect time to read a book. They are really reading whatever they have because their hobby will be reading a book. Why not the person who don't like looking at a book? Sometime, man or woman feel need book when they found difficult problem as well as exercise. Well, probably you will require this Campbell Essential Biology Plus MasteringBiology with eText -- Access Card Package (5th Edition).

Irving Wile:

Playing with family in a park, coming to see the ocean world or hanging out with close friends is thing that usually you will have done when you have spare time, then why you don't try matter that really opposite from that. One particular activity that make you not feeling tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of knowledge. Even you love Campbell Essential Biology Plus MasteringBiology with eText -- Access Card Package (5th Edition), it is possible to enjoy both. It is fine combination right, you still would like to miss it? What kind of hang type is it? Oh can happen its mind hangout guys. What? Still don't have it, oh come on its referred to as reading friends.

Jerry Thomas:

Your reading sixth sense will not betray you, why because this Campbell Essential Biology Plus MasteringBiology with eText -- Access Card Package (5th Edition) book written by well-known writer who really knows well how to make book that can be understand by anyone who have read the book. Written in good manner for you, dripping every ideas and composing skill only for eliminate your own personal hunger then you still hesitation Campbell Essential Biology Plus MasteringBiology with eText -- Access Card Package (5th Edition) as good book but not only by the cover but also by the content. This is one reserve that can break don't judge book by its handle, so do you still needing another sixth sense to pick this kind of!? Oh come on your examining sixth sense already told you so why you have to listening to yet another sixth sense.

Kathryn Botello:

E-book is one of source of expertise. We can add our understanding from it. Not only for students and also native or citizen require book to know the up-date information of year to help year. As we know those books have many advantages. Beside many of us add our knowledge, can also bring us to around the world. From the book Campbell Essential Biology Plus MasteringBiology with eText -- Access Card Package (5th Edition) we can have more advantage. Don't you to definitely be creative people? To become creative person must like to read a book. Merely choose the best book that acceptable with your aim. Don't possibly be doubt to change your life with that book Campbell Essential Biology Plus MasteringBiology with eText -- Access Card Package (5th Edition). You can more attractive than now.
