Discovering Intelligent Design: A Journey Into the Scientific Evidence By Gary Kemper, Hallie Kemper, Casey Luskin

Developed for middle-school-age students to adults, *Discovering Intelligent Design* is the textbook component of a comprehensive curriculum that presents both the biological and cosmological evidence in support of the scientific theory of intelligent design. The curriculum is divided into six modules exploring topics such as the origin and development of the universe, the origin of biological complexity, the fossil record's evidence (or lack thereof) for universal common descent, and the broader cultural debate over intelligent design.
