Facial Paralysis: Rehabilitation Techniques From Brand: TNY

Derived from the second edition of the world-famous *The Facial Nerve*, this targeted new book offers the most comprehensive approach to rehabilitating patients with acute and long-standing facial paralysis. Representing more than 30 years experience of doctors who have performed over 3,000 surgical procedures, it begins with a history of facial rehabilitative surgery, and then focuses on approaches that have proven to be successful over the years.

For each surgical operation, you'll get key details on patient selection, indications, contraindications, complications, and more. The book provides step-by-step instructions for the techniques, with more than 1,000 illustrations to demonstrate the procedures. Plus, you'll find valuable tips on non-surgical methods of enhancing the results of the procedures, such as makeup, hair styling, or choice of clothing.

All reconstructive surgeons--oral-maxillofacial, ophthalmoplastic, facial plastic, skull base, otolaryngologic, and neuro--will find this text to be a concise and appealing guide to treating facial paralysis. Residents will also benefit from the wealth of information provided here.

Editorial Review

Review

"If you are confused and mystified by the complexities of facial reanimation surgery, then this book is for you. . . . an excellent 'worth-the-money' book of interest and relevance to all surgeons specializing in the facial area and I am quite sure it will stimulate and greatly assist trainee and young surgeons to develop a special interest in facial paralysis rehabilitation surgery." - British Journal of Oral and Maxillofacial Surgery
