WiFi Security By Kevin Curran

This book aims to introduce the area of wireless (Wi-Fi, 802.11) security with particular emphasis on WEP. Weaknesses are highlighted through the art of war-driving where unprotected access points are discovered. War driving used ethically can be a powerful tool in the hands of security professionals to test the security of the networks they are charged with protecting.

Editorial Review

Users Review

From reader reviews:

Bobby Tremblay:

Do you have favorite book? In case you have, what is your favorite's book? Reserve is very important thing for us to find out everything in the world. Each e-book has different aim or perhaps goal; it means that guide has different type. Some people truly feel enjoy to spend their time for you to read a book. These are reading whatever they consider because their hobby is usually reading a book. What about the person who don't like examining a book? Sometime, individual feel need book if they found difficult problem or even exercise. Well, probably you should have this WiFi Security.

James Newman:

Here thing why this kind of WiFi Security are different and reputable to be yours. First of all reading a book is good nonetheless it depends in the content of computer which is the content is as yummy as food or not. WiFi Security giving you information deeper since different ways, you can find any publication out there but there is no book that similar with WiFi Security. It gives you thrill looking at journey, its open up your eyes about the thing this happened in the world which is perhaps can be happened around you. It is possible to bring everywhere like in area, café, or even in your method home by train. Should you be having difficulties in bringing the branded book maybe the form of WiFi Security in e-book can be your choice.

Regina Hash:

Your reading 6th sense will not betray you, why because this WiFi Security guide written by well-known writer whose to say well how to make book which can be understand by anyone who also read the book. Written within good manner for you, leaking every ideas and composing skill only for eliminate your current hunger then you still question WiFi Security as good book not only by the cover but also through the content. This is one e-book that can break don't determine book by its include, so do you still needing another sixth sense to pick this!?! Oh come on your looking at sixth sense already alerted you so why you have to listening to an additional sixth sense.

Karina McDermott:

In this era globalization it is important to someone to get information. The information will make someone to understand the condition of the world. The healthiness of the world makes the information easier to share. You can find a lot of referrals to get information example: internet, paper, book, and soon. You can see that now, a lot of publisher this print many kinds of book. The actual book that recommended to you is WiFi Security this guide consist a lot of the information in the condition of this world now. This book was

represented how do the world has grown up. The terminology styles that writer use to explain it is easy to understand. Often the writer made some investigation when he makes this book. Honestly, that is why this book acceptable all of you.
