Nature, Man and Woman By Alan Watts

In *Nature, Man and Woman*, philosopher Alan Watts reexamines humanity's place in the natural world—and the relation between body and spirit—in the light of Chinese Taoism. Western thought and culture have coalesced around a series of constructed ideas—that human beings stand separate from a nature that must be controlled; that the mind is somehow superior to the body; that all sexuality entails a seduction—that in some way underlie our exploitation of the earth, our distrust of emotion, and our loneliness and reluctance to love. Here, Watts fundamentally challenges these assumptions, drawing on the precepts of Taoism to present an alternative vision of man and the universe—one in which the distinctions between self and other, spirit and matter give way to a more holistic way of seeing.

Editorial Review

From the Inside Flap

A provocative and enduring work that reexamines humanity's place in the natural world -- and the spirit's relation to the flesh -- in the light of Chinese Taoism.

That human beings stand separate from a nature that must be controlled, that the mind is somehow superior to the body, and that all sexuality entails a seduction -- a danger and a problem--are all assumptions upon which much of Western thought and culture is based. And all of them in some way underlie our exploitation of the earth, our distrust of emotion, and our loneliness and reluctance to love.

Few books have challenged those assumptions as directly as this erudite and engaging work by the author of *The Way of Zen*. Drawing on the precepts of Taoism, Alan Watts offers an alternative vision of man and the universe -- one in which the distinctions between self and other, spirit and matter give way to a more holistic way of seeing. *Nature, Man and Woman* is a book of great elegance and far-reaching implication -- one of those rare texts that can change the way we think, feel, and love.

From the Back Cover

That human beings stand separate from a nature that must be controlled, that the mind is somehow superior to the body, and that all sexuality entails a seduction - a danger and a problem - are all assumptions upon which much of Western thought and culture is based. And all of them in some way underlie our exploitation of the earth, our distrust of emotions, and our loneliness and reluctance to love.

About the Author

Alan W. Watts, who held both a master's degree in theology and a doctorate of divinity, is best remembered as an interpreter of Zen Buddhism in particular, and of Indian and Chinese philosophy in general. Standing apart, however, from sectarian membership, he has earned the reputation of being one of the most original and "unruffled" philosophers of the twentieth century. Watts was the author of some twenty books on the philosophy and psychology of religion that have been published in many languages throughout the world, including the bestselling *The Way of Zen*. An avid lecturer, Watts appeared regularly on the radio and hosted the popular television series, *Eastern Wisdom and Modern Life*, in the 1960s. He died in 1973.

Users Review

From reader reviews:

Thomas Rinaldi:

The publication with title *Nature, Man and Woman* contains a lot of information that you can understand it. You can get a lot of profit after read this book. That book exist new expertise the information that exist in this guide represented the condition of the world right now. That is important to yo7u to understand how the improvement of the world. Carla Arbogast:

Does one one of the book lovers? If so, do you ever feeling doubt while you are in the book store? Try to pick one book that you just dont know the inside because don't judge book by its protect may doesn't work at

this point is difficult job because you are frightened that the inside maybe not since fantastic as in the outside seem likes. Maybe you answer is usually Nature, Man and Woman why because the fantastic cover that make you consider with regards to the content will not disappoint you. The inside or content is fantastic as the outside as well as cover. Your reading sixth sense will directly guide you to pick up this book.

Willie McCall:

Are you kind of busy person, only have 10 or 15 minute in your time to upgrading your mind ability or thinking skill perhaps analytical thinking? Then you are experiencing problem with the book compared to can satisfy your small amount of time to read it because all of this time you only find book that need more time to be study. Nature, Man and Woman can be your answer as it can be read by you actually who have those short free time problems.

Jane Rippeon:

As a college student exactly feel bored to reading. If their teacher expected them to go to the library as well as to make summary for some reserve, they are complained. Just little students that has reading's spirit or real their pastime. They just do what the professor want, like asked to the library. They go to right now there but nothing reading critically. Any students feel that studying is not important, boring in addition to can't see colorful photographs on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this period, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore , this Nature, Man and Woman can make you really feel more interested to read.
