## Anne Frank and the Children of the Holocaust By Carol Ann Lee

Anne Frank's diary changed how the world saw the Holocaust? this book will change how you see Anne Frank. Beginning with Otto Frank's idyllic childhood, follow the family's journey from its proud German roots through life under Nazi occupation to their horrifying concentration camp experiences. Interspersed with their story are personal accounts of survivors, excerpts from the other victims' journals, and black-and-white photos. A perfect blend of historical information and emotional narratives, this book makes an excellent companion to the diary, offering an indepth look at the life of Anne Frank, and an intimate history of the young people who experienced the Holocaust.

## Editorial Review

From School Library Journal

Grade 6 Up—Lee provides an overview that broadens the story that Anne Frank started in her diary. She details the girl's life before her family went into hiding and places Anne in context with other persecuted children and their attempts to survive. With chapter heads that quote from Anne's diary and 19 archival photos, the text reveals a girl who loved her friends, celebrating birthdays, and being the center of attention. Lee succeeds at illuminating the lives of individuals who once had hopes and dreams...like us, including those who tried to help, those who resisted, and ultimately those who perished. The inevitable question of why it happened is addressed in a quote from a former neighbor of the Franks, ...we were so scared. We thought, if we do the things that are demanded of us, we'll be all right...We thought, if we wear the star, if we obey the curfew, if we *do* everything, nothing will happen to us. This type of information considers the questions that readers ask as they learn about the period, making it a worthy title to include in a study of Anne Frank and the Holocaust.—*Janet S. Thompson, Chicago Public Library*

From [Booklist](#)

With millions of copies of *The Diary of Anne Frank* still in print after nearly 60 years, it's not surprising that many spin-offs and commentaries have been published. Lee's book is one of the best for locating background about what it was like to be young at the time. In clear, informal prose that is accompanied by occasional family photos, Lee weaves together a picture of Hitler's rise to power and the horrors of the Holocaust with the Franks' journey from their prosperous German home to the attic in Amsterdam. Throughout Lee includes stirring quotes and vignettes about other children (a deaf child forcibly sterilized; the child who survived Auschwitz, and more) and their rescuers, as well as numbers and particulars. Although there is an extensive bibliography, there are no source notes. But even without full references, this book will still serve as an excellent overview in the classroom and for personal reading; readers both older and younger than the target audience will find it valuable as well. *Hazel Rochman*

Review

The emphasis on how children [lived and coped] with the situations in which they found themselves was fresh and fascinating.
