A must-read for anyone interested in the next generation business. – Eric van Heck, Professor of Information Management and Markets, Rotterdam School of Management, Erasmus University.

In “*Platform Ecosystems*,” Amrit Tiwana delivers a most timely and in-depth perspective of this exciting topic. Ecosystems are at the heart of all modern economic activity and the most powerful known ecosystems have a “platform” at their core, driven by a strong player leading their ecosystem, inviting and mutually boosting the value-add by other players. The combinatorial multipliers of successful ecosystem lead to the competition of entire ecosystems. Understanding the key drivers and mechanisms of platform ecosystems is critically important when contemplating competitive strategies. – Clemens Szyperski, Microsoft
