**Amplify: Digital Teaching and Learning in the K-6 Classroom** By Katie Muhtaris, Kristin Ziemke

"Using technology doesn't mean that we throw out those strategies that we've found to be successful with students," write Katie Muhtaris and Kristin Ziemke. "It's not the tools-it's what we do with them that counts.

Katie and Kristin start with our most important educational goals-literacy, independence, and critical thinking-and helps you connect them to the technology available in your classroom or school. You'll help students dig into texts, research their questions, and create powerful learning communities by using digital tools effectively, responsibly, and in combination with trusted artifacts and print resources.

*Amplify* does exactly what the title implies. "When introducing technological tools, we often apply the same practices and strategies we use in our daily teaching, but amplify their power with technology," write Katie and Kristin. "We model what we want students to do with the technology, guide them to try it out with us, provide time for practice, then share as a class." They help amplify your literacy curriculum with lessons and guidance for:

- explicitly teaching kids how to be effective digital readers and thinkers
- giving students practice with closely reading images, infographics, and video
- emphasizing student ownership and creativity

Whether you are in a 1:1 school, want to squeeze everything you can out of the one device in your classroom, or your school is encouraging you to use more digital tools, read *Amplify*. You'll discover how to gradually release responsibility to empower students as you-and your students-make the most of any technology.

### **Editorial Review**

#### **About the Author**

Katie Muhtaris has enjoyed teaching and learning with her students in the Chicago Public School system for the last eight years. She is Nationally Board Certified as a Middle Childhood Generalist and holds a Master's Degree in Teacher Leadership. In addition to her devotion to her students, Katie also leads staff development in person around the country and digitally around the globe on Inquiry-based learning, technology integration, and reading comprehension strategies. Katie is the author of the blog Inquiry Live in the Classroom where she writes about her day-to-day teaching practices and seeks to connect with educators around the world.

Kristin Ziemke has been teaching and learning from children in both urban and suburban schools for the past 13 years. She engages her first grade students in authentic learning experiences where reading, thinking, collaboration, and inquiry are at the heart of the curriculum. An Apple Distinguished Educator, National Board Certified Teacher, and Chicago's Tech Innovator of the Year, Kristin holds a Master's Degree in Instructional Leadership. She constantly seeks opportunities to transform education through technology innovation, pairing best practice instruction with digital tools to capture thinking, foster creativity, differentiate instruction, and increase collaboration in the classroom and beyond.

### **Users Review**

#### **From reader reviews:**

##### **Christopher Crow:**
