### Dragons vs. Drones By Wesley King

**A young computer genius is chased by sleek, high-tech drones into a land populated by Godzilla-size dragons, setting off a war that only he can stop. Part *Eragon*, part *Transformers*, with a magical beating heart at its center.**

Marcus Brimley was just four years old when his CIA analyst father went missing and the world branded him a traitor. Eight years later, searching for clues to find his father and prove his innocence, Marcus breaks a complex code that sends him shooting through a storm into an alternate realm . . . but he doesn't travel alone. When Marcus lands in this new world, Dracone, he finds that he has been followed by government drones. And they're out to destroy Marcus and all of Dracone.

While fleeing the drones, Marcus meets Dree, a twelve-year-old Draconian girl who comes from a family of dragon riders. Dree explains to Marcus that while humans and dragons used to be friends, Dracone's new prime minister has turned them into enemies, with humans hunting dragons for sport and dragon-riding families like Dree's pushed to the poorer outskirts of the city.

But the drones are firing on both the dragons and the people of Dracone. Soon, Marcus and Dree discover that they must get help from the dragons if they want to stop an all-out war that will leave the incredible realm of Dracone decimated.

### Editorial Review

From School Library Journal

Gr 4–7—Marcus's father disappeared without a trace eight years ago while working for the CIA. He was quickly branded a traitor, causing heartache and isolation for his young son. Still convinced that his dad is alive and innocent, Marcus uses all of his skills as an advanced and gifted coder to unlock the mystery of his disappearance. Extremely conscious that his every movement is being tracked by government drones, he is fixated on weather patterns that he believes are linked to his father's vanishing. When he purposefully puts himself in the center of a horrific storm, the last thing Marcus expects is to be transported to a parallel world called Dracone. In this strange place, he meets Dree, a girl with unusual gifts of her own and a dragon companion to boot. Horrified that the drones have followed him to this new land, the two join forces with the dragons to battle the drones and perhaps reveal the whereabouts of Marcus's father. King delivers an effective amalgam of science fiction and fantasy in this first entry in a series. The book will hold strong appeal for kids who are into coding and all things tech. VERDICT A smart purchase for libraries looking to augment their tween sci-fi collection.—Amy Nolan, St. Joseph Public Library, St. Joseph, MI

Review

"This mash-up of fantasy and sci-fi is excellently done. Middle-grade readers will devour this and rejoice that the ending leaves room for a sequel." —*Booklist*

"[*Dragons vs. Drones*] will hold strong appeal for kids who are into coding and all things tech." —*School Library Journal*

About the Author

After discovering that his first career choice, Jedi, was somewhat impractical (for now), Wesley King moved on to his second option: fiction author. While he lives in suburban Oshawa, Ontario, Canada, he spends most of his time in the imagined universes of superpowered children, dying stars, and magical fantasy realms. His first novel, *The Vindico*, won a Red Maple Award, and he has twice been a Junior Library Guild Official Selection. He travels the rolling Canadian countryside speaking to schools and conducting literacy workshops, especially aimed at getting boys to read and write. You can like him on Facebook at the Wesley King fan page, follow him on Twitter @WesleyTKing, or check out his website at [www.wesleytking.com](http://www.wesleytking.com).

### Users Review

From reader reviews:

Spencer Fuentes:

Why don't make it to become your habit? Right now, try to prepare your time to do the important action, like looking for your favorite e-book and reading a reserve. Beside you can solve your long lasting problem; you can add your knowledge by the publication entitled *Dragons vs. Drones*. Try to the actual book *Dragons vs. Drones* as your close friend. It means that it can to be your friend when you feel alone and beside that of course make you smarter than in the past. Yeah, it is very fortunated to suit your needs. The book makes you far more confidence because you can know everything by the book. So , we need to make new experience along with knowledge with this book.

**Esther Belote:**
