Editorial Review

From School Library Journal

Gr 9 Up—Cia Vale, the girl who survived the Testing, vows to join the rebel alliance fighting against the United Commonwealth. But who will follow her? And who can be trusted?

From [Booklist](#)

New university student Cia overhears a plot that will not only strengthen the controversial testing that permits students entry to the university but also will result in the government's overthrow. When she shares details with United Commonwealth President Collindar, she is tasked with killing 12 important government officials to stop the plot. But is it the right thing to do? Although this first-person narrative is burdened with repetitious introspection, it also builds to a satisfyingly tense climax before a final clever authorial twist subverts the story. Readers should start with *The Testing* (2013) and *Independent Study* (2014) to get the necessary backstory for this series ender. Grades 7-10. --Cindy Welch

Review

"Charbonneau's portrayal of a ravaged future America attempting to rebuild itself is gripping, filled with surprises and complicated questions of right versus wrong. As in the previous books, Charbonneau remains focused on philosophical worries and moral tests over spectacle and bloodshed, with multiple layers and twists to keep readers forever guessing."

—*Publishers Weekly*

"Conspiracies, counterconspiracies, lies and double crosses: It's quite a ride."

—*Kirkus*

"Charbonneau delivers nail-biting suspense that fans of the series have come to love."
