Justice: A Reader From Oxford University Press

Justice brings together in one indispensable volume essential readings on justice and moral reasoning. With readings from major thinkers from the classical era up to the present, the collection provides a thematic overview of the concept of justice. Moreover, Sandel's organization of the readings and his own commentaries allow readers to engage with a variety of pressing contemporary issues. Looking at a host of ethical dilemmas, including affirmative action, conscription, income distribution, and gay rights, from a variety of angles--morally, legally, politically--the collection engages with the core concerns of political philosophy: individual rights and the claims of community, equality and inequality, morality and law, and ultimately, justice. With concise section introductions that put the readings in context, this anthology is an invaluable tool for students, teachers, and anyone who wishes to engage in the great moral debates that have animated politics from classical times to our own.

Editorial Review

Review

"Michael Sandel is one of the most popular and influential college professors in America. For more than twenty years, hundreds of students at a time have packed into a Harvard University lecture hall to hear his discourses on justice; and hundreds have streamed out feeling a surprisingly personal connection with their gifted teacher. This book reveals Sandel's secret recipe for enthraling students with timeless questions of law, justice, and morality in a decidedly contemporary context."--Anita L. Allen, Professor of Philosophy and Professor of Law, University of Pennsylvania Law School

"This thoughtful, stimulating, and convenient collection brings a range of classic moral and political philosophers--from Aristotle to John Stuart Mill--to bear on a range of contemporary controversies about justice. It invites readers to discover how their views on contemporary questions might be clarified, deepened and challenged by an encounter with enduring debates in moral and political philosophy."--Russell Muirhead, Associate Professor of Democracy and Politics, Dartmouth College

"This outstanding collection successfully blends historical and contemporary thought, on issues of theoretical and practical importance, to illuminate the main problems of justice. It is accessible to undergraduates in philosophy, with breadth and depth enough to engage the experienced philosophical reader hoping to rethink some central debates."--Michele Moody-Adams, Director and Professor of Ethics and Public Life, Cornell University

About the Author

Michael J. Sandel is the Anne T. and Robert M. Bass Professor of Government at Harvard University, where he has taught political philosophy since 1980. He is the author of numerous books, including *Liberalism and the Limits of Justice*, *Democracy's Discontent*, *Public Philosophy* and most recently, *The Case against Perfection: Ethics in the Age of Genetic Engineering*.

Users Review

From reader reviews:

Deanna Stewart:
