Memoir: An Introduction By G. Thomas Couser

Each year brings a batch of new memoirs, ranging from works by former teachers and celebrity has-beens to disillusioned soldiers and bestselling novelists. In addition to becoming bestsellers in their own right, memoirs have become a popular object of inquiry in the academy and a mainstay in most MFA workshops. Courses in what is now called "life writing" study memoir alongside personal essays, diaries, and autobiographies. *Memoir: An Introduction* proffers a succinct and comprehensive survey of the genre (and its *many* subgenres) while taking readers through the various techniques, themes, and debates that have come to characterize the ubiquitous literary form. Its fictional origins are traced to eighteenth-century British novels; its early American roots are examined in Benjamin Franklin's *Autobiography* and colonial captivity narratives; and its ethical conundrums are considered via the imbroglios brought on by the questionable claims in Rigoberta Menchú's *I, Rigoberta*, and more notoriously, James Frey's *A Million Little Pieces*. Alongside these more traditional literary forms, Couser expands the discussion of memoir to include film with what he calls "documemoir" (exemplified in Nathaniel Kahn's *My Architect*) and graphic narratives like Art Spiegelman's *Maus*.
