The Cambridge Ancient History 14 Volume Set in 19 Hardback Parts By Various Authors

Over the past half century The Cambridge Ancient History has established itself as a definitive work of reference. The original edition was published in twelve text volumes between 1924 and 1939. Publication of the new edition began in 1970. Every volume of the old edition has been totally re-thought and re-written with new text, maps, illustrations and bibliographies. Some volumes have had to be expanded into two or more parts and the series has been extended by two extra volumes (XIII and XIV) to cover events up to AD 600, bringing the total number of volumes in the set to fourteen. Existing plates to the volumes are available separately.

Editorial Review

Review

'Cambridge's production standards are exemplary. This volume is self-recommending.' Martin Brooke, Church Times

'I had bought this volume before I was asked to review it, the best possible compliment surely to publishers, editors, and contributors alike.' The Classical Review

'... the CAH has its firmly established place in the libraries, and vol. XI will provide useful guidance for many decades to come in the hands of whoever acquires it.' ARCTOS

'Cameron and Garnsey deserve congratulations for this: the volume will last at least as long as the first editions of CAH did (of course they did not cover this period at all), and maybe longer.' Journal of Roman Studies

'... authoritative ... written with scholarship and care by leading figures working in the field ... behind each paragraph stands a vast array of scholarship as displayed in the extensive bibliographies. The CAH offers certainties in a scholarly world that is increasingly obsessed with ambiguities'. The Classical Review

'This volume is an organizational and conceptual tour de force. ... a reliable, amply documented, and self-aware volume that offers clear guidance through a landscape of remarkable variety and interest. The volume is far more than a rock solid base for further research by scholars already in the field. It invites thoughtful reassessment of the era it so vividly describes so that students of other eras might benefit from its lessons.' M. Maas, Rice University

'... an enormous enterprise, into which immense academic energy has been poured ... The volume thus offers a vast panorama survey of many aspects of the period ... conspicuously strong in examining the history of the various separate regions of the Empire ... volume XI is perhaps the most successful of all the Roman volumes in CAH2 published so far ... excellent sections in government and the working of the Imperial system, with a notably original contribution by Brent Shaw on 'Rebel and Outsiders.' English Historical Review

"It sums up some of the best scholarship since 1927." The Classical Journal

..."it is a rich refernece work....This is a wonderful volume..." Classical World

"This is an absolutely standard and required reference work for every library, from public to university research." Choice

"the entire thrust of the volume has been transformed and truly mirrors contemporary scholarly preoccupations." American History Bulletin

"The answer to the question whether the ancient world is worth studying is 'yes', and the Cambridge Ancient History proves it....CAH III/2 is an impressive achievement." John Ray, Times Literary Supplement

"The distinguished contributors...write authoritatively, with surprisingly few inconsistencies or disagreements.... In short: a splendid book, essential for every collection on ancient history...." *Classical World*

"The new CAH IX is a welcome achievement, a readable and reliable political narrative with significant thematic contributions that mark major progress in sophistication and incisiveness of thought." *The Classical Journal*

"This series is a basic must' for all public and private libraries, in the community or in universities. It will be the standard general work for serious academic students and scholars for the next generation." *Religious Studies Review*

..."this series is a basic "must" for all public and private libraries, in the community or in the universities. It will be the standard general work for serious academic students and scholars for the next generation." *Religious Studies Review*

..."the range and breadth of material covered will make this indispensable reading for ancient historians and students of Roman literature and culture alike. The high level of quality throughout is what we have come to expect from this venerable series." *Craigie Champion, Classical World*

"The new volume X of the Cambridge Ancient History is an impressive accomplishment....the editors have done an admirable job. The overall standard of the contributions is good: anyone seeking an outline of the period who turns to this book will not be badly served." *International History Review*

"CAH IV fulfills its function: it sets forth the state of the questions, clarifies controversies, suggests new approaches. It will be found useful by graduate students reviewing for comprehensive examinations and by professors wishing to update lectures in survey courses." *Paul MacKendrick, Classical World*

..."this is a reliable work which both scholars and students can use with confidence. The individual contributors must be commended for submitting such excellent material. But it is the editors...who deserve the warmest commendation for the sureness of their judgement in soliciting contributions of high calibre and for editing the work of many different historians to produce a volume which is...both accurate on matters of fact and secure in its historical assessments and which...displays greater originality than most collective works of this nature." *International History Review*

"One can only be immensely impressed on opening this book....An immediately apparent and most attractive feature of the volume under review is its generous supply of maps which are not only excellently produced but put to imaginative use....The volume is generous around the margins of the ancient world....But it is the interpretative discussions that are of most interest....Perhaps this issue can most clearly be seen with reference to women....No one who reads it will fail to be daunted by how much there is to know, nor grateful for the skill and style with which its authors lay so much before us. And the book stands as a superb vindication of the new field of late antiquity: unknown until recently." *Classical Bulletin*
