# Big Data: A Primer (Studies in Big Data)

From Springer

Big Data: A Primer (Studies in Big Data) From Springer

This book is a collection of chapters written by experts on various aspects of big data. The book aims to explain what big data is and how it is stored and used. The book starts from the fundamentals and builds up from there. It is intended to serve as a review of the state-of-the-practice in the field of big data handling. The traditional framework of relational databases can no longer provide appropriate solutions for handling big data and making it available and useful to users scattered around the globe. The study of big data covers a wide range of issues including management of heterogeneous data, big data frameworks, change management, finding patterns in data usage and evolution, data as a service, service-generated data, service management, privacy and security. All of these aspects are touched upon in this book. It also discusses big data applications in different domains. The book will prove useful to students, researchers, and practicing database and networking engineers.

About the Author

Hrushikesha Mohanty is currently a professor at School of Computer and Information Sciences, University of Hyderabad. He received his Ph.D from IIT Kharagpur. His research interests include Distributed Computing, Software Engineering and Computational Social Science. Before joining University of Hyderabad, he worked at Electronics Corporation of India Limited for developing strategic real-time systems. Other than computer science research publications, he has penned three anthologies of Odia poems and several Odia short stories.

Prachet Bhuyan is presently an associate professor at KIIT University. He completed his bachelor and master degrees in computer science and engineering from Utkal University and VTU, Belgaum respectively. His research interests include Service-Oriented Architecture, Software Testing, Soft computing and Grid Computing. Before coming to KIIT he has served in various capacities at Vemana Institute of Technology, Bangalore and abroad in Muscat, Oman. He has several publications in indexed journals as well as conferences. He has been generously awarded by several organisations including IBM for his professional competence.

Deepak Chenthati is currently a senior software engineer at Teradata India Private Limited. His Industry experience includes working on Teradata Massively Parallel Processing systems, Teradata server management, Teradata JDBC drivers and administration of Teradata internal tools and confluence tool stack. His research interests include Web Services, Teradata and Database management. He is currently pursuing his doctorate from JNTU Hyderabad. He received his master and bachelor degrees in computer science from University of Hyderabad and Sri Venkateswaraya University respectively.

Users Review

From reader reviews:

Nancy Sena:

This book untitled Big Data: A Primer (Studies in Big Data) to be one of several books that will best seller in

this year, honestly, that is because when you read this reserve you can get a lot of benefit into it. You will easily to buy this kind of book in the book retailer or you can order it through online. The publisher of this book sells the e-book too. It makes you quickly to read this book, as you can read this book in your Cell phone. So there is no reason to you to past this book from your list.

Melvin Groth:
