## Environmental and Natural Resource Economics (The Pearson Series in Economics) By Thomas H. Tietenberg, Lynne Lewis

Environmental and Natural Resource Economics is the best-selling text for this course, offering a policy-oriented approach and introducing economic theory in the context of debates and empirical work from the field. Students leave the course with a global perspective of both environmental and natural resource economics.

- Gain flexibility in your course outlines: The text is organized, so that you can fit individual course outlines.
- Use relevant material: Students identify with up-to-date information, which gives them a global perspective on key issues.
- Engage students with self-test exercises, debates and examples: Students are able to prepare for their field and learn from an active learning path, which allows them to grasp concepts before moving through the text.
